Gunseo's Story of G Project

I want to find ways to protect sea turtles and the environment.

The discovery of a sea turtle with a straw stuck in its nose is shocking.

Sea Turtle Conservation Project

I will read a book about sea turtles and learn about the ecology of sea turtles.

I will find a zero-waste action plan for environmental protection and conduct a community partnership campaign.

I'm also interested in the environment, so let's research together.

We provide inter-curricular learning according to the subject and themes that suit the student's interests. Learning is expanded to their real life linking to community participating programs.
